ICBM COMPLEX, TEYKOVO, USSR LAUNCH AREAS D, E, F, AND G

25X1D

25X1D

This report presents information on Launch Areas D (Site 4),* E (Site 5), F (Site 6), and

G (Site 7) of the Teykovo ICBM Complex based on KEYHOLE photography of [REDACTED] and updating that given in NPIC R-205 '64, dated March 1964. 1

*TDI site designators are shown in parentheses.

25X9

LAUNCH AREA D

25X9

Launch Area D (56-59N 40-39E), in a wooded area 6.7 nautical miles (nm) northeast of the complex support facility, consists of a completed Type IID launch site and a site support facility (Figure 1). It was first seen on photography of [REDACTED] and can be negated on photography of [REDACTED]

Construction at the site was considered complete in [REDACTED]

The launch site is in a clearing and no security fence can be identified. An erector shelter is situated in the center of each launch pad and there are two earth-mounded canted buildings inboard of each pad. Three buildings are located in the center of the site: the westernmost is large and earth banked, the middle one is small and earth mounded, and the third is large and earth mounded. There are also two earth-banked missile-ready buildings about 500 feet behind the left launch pad. The inner ready building is canted about 25 degrees and the other is in line with the long

axis of the pad. A small unidentified mound, forward of the canted ready building, may be a buried tank. [REDACTED]

The site support facility consists of an administration housing section and a housing section. The administration/housing section, on both sides of the access road about 3,000 feet south-southeast of the launch site, consists of 5 large barracks-type buildings, 6 administration-type buildings, 9 smaller buildings, and 2 buildings under construction. The housing section, about 2,000 feet south of the launch site, is probably the old construction camp. It consists of 10 small barracks-type buildings, one L-shaped building, 5 small structures, and one building under construction. There is a small vehicle equipment pool in the southeast corner of the administration housing section.

LAUNCH AREA E

25X1D

Launch Area E (56-48N 40-10E), in a wooded area 13.4 nm southwest of the complex support facility, consists of a completed Type IID launch

site and a site support facility (Figure 2). The site was first seen on photography of [REDACTED] and can be negated on [REDACTED]

buildings. There is a small vehicle/equipment pool in the northeast corner of this section. The housing section, about 3,000 feet south-

southeast of the launch site, contains 12 small barracks-type buildings, an L-shaped building, and 7 smaller buildings.

LAUNCH AREA F

Launch Area F (56-54N 40-22E), in a wooded area 7.4 nm northeast of the complex support facility, consists of a completed Type IID launch site and a site support facility (Figure 3). It was first seen on photography of [REDACTED]

[REDACTED] Construction at the site was considered complete [REDACTED]

The launch site is situated in a clearing and no security fence can be identified. An erector/shelter is positioned at the rear-center of each pad and two earth-mounded canted buildings are inboard of each pad. Three earth-mounded buildings are in line down the center of the site and two small unidentified mounds, just to the right of these buildings, may be buried tanks. There is also a small building to the left rear of the site, just off the access

road. There are three earth-mounded missile-ready buildings. Of the two behind the right pad, the inner one is in line and the other is canted outward about 25 degrees. The single ready building behind the left pad is canted outward about 60 degrees. [REDACTED]

The site support facility consists of an administration/housing section and a housing section. The administration/housing section contains 22 buildings; a small vehicle/equipment pool is in the northeast corner. The housing section, about 2,500 feet south of the site, consists of 21 small barracks-type buildings, 2 L-shaped buildings, and 2 other buildings.

LAUNCH AREA G 25X1D

Launch Area G (56-46N 40-02E) consists of clearings for a Type IID launch site and for a site support facility (Figure 4). Located in a wooded area 19.1 nm southwest of the complex support facility, the site was first seen on photography of [REDACTED]

This launch area has been abandoned; there

have been neither significant changes nor signs of construction activity since it was first seen. [REDACTED] only clearings for pads, buildings, and roads are present; no buildings are visible. The complex main road terminates at Launch Area E and only a trail continues on to Launch Area G. No improvement in this trail has been noticed since Launch Area G was first seen.
